Austria Tensely Awaits Hitler's Speech Sunday

Austrian Nazis Flock To Schuschnigg's Political Organization

HITLER'S GRIP ON NATION TIGHTENS

VIENNA, Feb. 19.—While all Austria tensely awaited Chancellor Hitler's Reichstag speech tomorrow, Der Fuehrer's grip on this perplexed nation tightened perceptibly today as Austrian Nazis joyfully flocked to the Fatherland front, only legal political party in the country. The Nazis, until a few days ago outlawed in Austria, paraded into Chancellor Kurt Schuschnigg's political organization showing no signs of disappointment over a pledge voiced by Hitler to prevent the Nazi party, as such, from interfering in Austrian internal affairs. Hitler's pledge was openly regarded as a gesture to preserve the forms of Austria's fading independence, and the fact that Der Fuehrer made no pledges regarding the actions of the Fatherland front was not lost on the Nazis—or on anyone else.

Hitler Will Control
Anti-Nazis complained bitterly that Hitler will be able to control Austria just as efficiently with his followers in the Fatherland front as with the troops along the streets of Vienna in Swastika-decorated brown shirts.

Unrest at this latest development Austria industrial and Jewish leaders appealed to Schuschnigg for protection. They were answered by increasing indications that Schuschnigg will soon quit his post.

Announcement that the Fatherland front is now open to Austrian Nazis was made in an official communiqué which closed by admonishing:

"The government of the Reich will take measures to prevent the (Continued On Page Two)

Heavy Spending May Be Resumed

WASHINGTON, Feb. 19.—Renewal of heavy governmental expenditures was seen by high fiscal advisers today as the administration's next move to bring about business recovery.

Should present federal aids to industry fail to restore any marked degree of prosperity, it is likely President Roosevelt will agree to further abandonment of economy objectives, according to the advisers. In his pronouncement that commodity prices should be brought into balance with each other, Mr. Roosevelt yesterday promised the government's efforts would be directed toward increasing production.

See Hungary's Move As War Debt Feeler

WASHINGTON, Feb. 19.—New evidence that the teeth in the Johnson Act are really beginning to bite war-minded European nations was seen here today in Hungary's effort to scale down her debt to the United States on a basis of payment approximating 30 per cent of the principal and 60 per cent of the interest. The Johnson Act prohibits the flotation of any foreign loans in the American investment market by those nations that are in default of their obligations to the American treasury. Inasmuch as all of the American debtors, save little Finland, are in default and have been for some years, the Johnson Act presents an impassable barrier to the debtors in their efforts to finance their rearmament schemes with American dollars.

Debt Is Small
The Hungarian debt is relatively insignificant. It amounted originally to only \$1,685,000—a mere pittance as compared with the \$12, (Continued On Page Two)

Battery B Memorial Fund Is Given Boost By Mt. Jackson Pupils

Opening the campaign for funds from the school children of the county for the Battery B monument on Gettysburg Battlefield the Mt. Jackson high school and grade school today reported \$30. Concededly this school is located in the village where Battery B was first formed.

S. G. McCullough, supervising principal of the school presented the matter to the youngsters but they needed little explanation. They knew of Battery B. Some of their grand sires fought with Cooper at Gettysburg and those who were not related to men of the Battery have been brought up on the glorious history of Battery B.

The \$30 from the Mt. Jackson boys and girls is expected to grow into many hundreds before the campaign is over. Every school in the county, city, rural, and parochial is being asked to take part in the campaign along with citizens, civic, fraternal and patriotic organizations. The goal desired is \$1500.

The plan is to provide a suitable monument at the place where Battery B fought on the first day of the battle. On that day, July 1, 1863 they lost three men and nine were wounded.

General Chairman Edwin O. Reed said today the campaign was getting under way. A total of \$130 has been pledged towards the \$1500 and it is thought the balance will not be hard to raise.

FASCISM BECOMES BIG ISSUE IN JAPAN

Admiral Suetsugu Violently Assailed—Recently Said Yellow Races To Rule

(BULLETIN)
International News Service

TOKYO, Feb. 19.—A riot in parliament, which may prove the forerunner of the latest parliamentary fight against Fascism, today resulted in severe injuries to the speaker of the house of representatives.

Bedlam broke loose in the house when members loudly charged that the Fascism of Admiral Nobumasa Suetsugu, minister of the interior and prospective premier was "running to excesses."

So violent did the outburst become that the house was forced to suspend its meeting for nearly an hour, then adjourn to permit members to cool down.

Speaker Is Hit
Shoji Koyama, speaker of the house, was hit on the head several times during the uproar and was badly hurt before he was rescued.

Police at the same time announced that a member of the Japanese Fascist corps was found hanged, presumably by anti-Fascists.

Members of the house of representatives violently assailed Admiral Suetsugu and his ministry as a "hotbed of dictatorial despotism."

Suetsugu has achieved world-wide prominence for his aggressive utterances on the destiny of the yellow races to achieve universal dominance.

PA NEW OBSERVES

New detours will soon be making their appearance, it is expected, when the weather breaks and construction work can be done without interference from the rigors of winter.

Coming over the railroad crossing on Mahoning avenue, yesterday afternoon, we noticed that a flagman was near the track waving the O. K. to the motorist. Some autoist had gone over the crossing in the early morning. The gates were down and the driver took his car or truck through, probably "to beat the train" and did the usual thing, broke both gates off to the iron work on either side.

It was stated in city hall today that the stone building, built some years ago as a comfort station in Cunningham park will be dismantled and moved to Cascade Park. Democrats Have Tentative Slate

Jones Likely To Head Ticket

Governor Earle Seen As Probable Party Candidate For U. S. Senator

FINAL OUTCOME ON SLATE AWAITED

By J. WILLIAM THEIS
International News Service Staff Correspondent
HARRISBURG, Feb. 19.—Pennsylvania's backstage rough-and-tumble slate battle tentatively spelled Charles Alvin Jones, Pittsburgh attorney, for the Democratic gubernatorial nomination today, but the final outcome apparently hinged on conferences in New York and Washington.

Party leaders came close to an open break at an executive mansion conference here yesterday. It was learned, but called in the face of political expediency to agree, for the present, on this slate:

For governor—Charles Alvin Jones, a former deputy attorney general.
For U. S. senate—Gov. George H. Earle.

For lieutenant governor—Dr. Leo C. Mundy, state senator from Wilkes-Barre.
For secretary of internal affairs—Thomas A. Logue, the present secretary.

The bitter feud reportedly came when U. S. Senator Joseph P. Guffey threatened to announce his own candidacy for governor on the grounds that anything but an open primary was out of the question. His threat, it was said, brought Democratic State Chairman David L. Lawrence, himself a potential candidate, and Matthew H. McCloskey, Philadelphia co-chairman, into the fray against Guffey.

national socialist party from interfering in the domestic affairs of Austria.

Another communique, signed by Schuschnigg, stated: "Austrian citizens (meaning Nazis) who are about to join the Fatherland front, but who violate the constitution of Austria, will receive severe punishment, including exile from Austrian territory."

Display Nazi Swastika

But this restraining warning failed to prevent young Nazis from walking jauntily through uneasy Jewish quarters in Vienna, displaying the Nazi Swastika openly for the first time since 1934, when the Nazis were banned after their attempted putsch bogged down in the assassination of Chancellor Engelbert Dollfuss.

To the Jewish spokesman, Dr. Desider Friedman, who approached him, Schuschnigg promised the new Nazi cabinet will not consider anti-semitic measures or revision of Austrian citizenships acquired after the World War.

To the equally worried industrialists, Schuschnigg denied reports that a customs union with Germany is around the corner. These reports had seriously worried manufacturing circles, which fear such a development would ruin much of their business.

"Mouth Peace" Goes To Germany

Meanwhile, Hitler's "mouth-piece," Dr. Alfred Sess-Inquart, returned to Vienna after receiving a lesson from Der Fuehrer and his Gestapo chiefs on how to deal with communists. He had orders from Hitler to crush communism from the Bavarian border to Brenner Pass. The same will go for monarchists, socialists and other "subversive groups."

Sess-Inquart, the pro-Nazi minister of interior, was greeted by Michael Skubi, the non-Nazi police chief, who is reported scheduled to be ousted from his post.

Later Sess-Inquart conferred lengthily with Chancellor Schuschnigg.

Meanwhile, all over the country, repressed Nazis returning to their homes from jail received wild ovations from their friends.

FACTS ABOUT INCOME TAX

DEDUCTION FOR DEPRECIATION

The revenue act provides for "a reasonable allowance for the exhaustion, wear and tear of property used in the trade or business, including a reasonable allowance for obsolescence." For convenience, such allowance usually is referred to as depreciation.

In claiming a deduction for depreciation several fundamental principles must be observed. The deduction must be confined to property actually used in trade, business, and or profession, and to improvements on real property, other than property used by the taxpayer as his personal residence. In general, it applies to the taxpayer's capital assets—buildings, machinery, etc.—the cost of which cannot be deducted as a business expense.

A lawyer, doctor, or other professional man may not charge off as a current expense the cost of a library used wholly in his profession, this being a capital expenditure and the library a capital asset; but he may deduct an allowance for depreciation based upon the useful life of the library. If part of a professional man's residence is used by him for office purposes, a proportionate amount of the depreciation sustained may be deducted, based generally on the ratio of the number of rooms used for such purposes to the total number of rooms in the building. If a taxpayer rents to others a portion of his residence. Under such conditions, however, the taxpayer must include in his gross income the rentals received.

Noted Consultant Heard In Lecture

Major L. L. B. Angas Tells Leaders 'Profits Must Be Restored'

Speaking last night to leaders of business, banking and industry from many cities in western Pennsylvania and eastern Ohio, Major L. L. B. Angas, internationally known investment consultant from New York, discussed "The Outlook for Trade and Securities Under Managed Money."

He appeared in New Wilmington as a lecturer in the course for business and industrial leaders which Westminster college's department of economics and business administration sponsors.

"In its simplest terms," the speaker said, "bad trade results from people not spending money fast enough on goods and services. And any general check to this flow of money on to commodities, may be due either to something physical occurring in the sphere of money itself, or in the sphere of commodities; or to something mental going on in the minds of the people who own money and who might spend it, but don't."

He told how actions of consumers, middlemen and producers affect "the velocity of money," discussed how the money supply influences business, the nature of profits, the price level in relation to the debt level and then, in closing, declared: "Profits, gentlemen, must be restored first. That is the way to prime the pump. That is the key to this and all slumps."

A. J. Kidron, vice president of Youngstown's City Savings & Trust bank, introduced him.

SEE HUNGARY'S MOVE AS WAR DEBT FEELER

(Continued From Page One)

000,000,000 owed the United States by a dozen of the debtor nations of Europe, headed by Great Britain, which owes in excess of \$4,000,000,000.

The Hungarian offer to settle on a basis of 30 cents on the dollar, together with 60 per cent of the interest entailed, was widely regarded here today as "bait."

Should it be accepted by the United States and there is no indication that it will be even considered—then Great Britain, France, Italy, Belgium and the smaller debtors would be in a position to point to it as establishing a precedent and request similar leniency where their own obligations are concerned.

If they could settle their debts on any such basis, the present defaults, which have continued since the Hoover moratorium in 1931, would be legally "cured" and the avenue reopened into the rich American investment field.

Little doubt prevails here that the Hungarian move has been actually prompted by America's greatest debtors, Great Britain, France, Italy and Belgium.

REACTION FROM BUSINESS WORLD BEING AWAITED

"Breathing Spell"

In every way, Mr. Roosevelt sought to build up the idea today that his "breathing spell" here at Hyde Park was synonymous with a "breathing spell" for business that will last through the current session of congress.

Initial reactions of the stock market yesterday to the Roosevelt outlook and his desire to attain a "moderate rise" in the general price level were discounted at temporary headquarters here. It was pointed out that the president's policy statement had been fairly well anticipated and the market's irregularity was attributed to profit-taking.

this reason it is probable that a new building will be sought. At the present time the relief offices are in the old knitting mill on South Mill street, while the mothers assistance fund force which handles old age assistance and pensions for the blind as well is located in the Wallace block on the public square.

Either location would be too small to handle the combined forces and a new location will be sought.

The Parent Problem

By Garry C. Myers, Ph. D.

BOY HAS TROUBLES
"DARL' DR. MYERS: This is the problem: Boy, nine. Each month school report is rated unsatisfactory. Department, fail—nothing to make parents proud. This month the father's punishment was very humiliating. The son must write to both grandparents and to me (aunt) telling us of his poor report. I feel these shortcomings should not be made public, but should be the secret of the child and parents. This child has a sister a year older getting perfect reports, which makes his look terrible. I have heard you speak at several meetings and read your daily articles in our paper. I do wish all parents could study psychology before they have child problems. What did you do when your children had to be punished?"

My reply to her:
You are right. Not only should this boy's failure be a secret in the family, but his parents should be more humane and sensible toward him. I hope you refuse to be a party to the inquisition. Perhaps you can change this father's attitude or induce some other person to do so. Otherwise this child will be ruined.
Probably the father thinks he is doing right. I do not question his motives, just his judgment. One would think he should know better, but there are thousands like him and, therefore, thousands of defenseless youngsters who suffer like his little son. And some of these fathers are otherwise intelligent and highly educated, even Ph.D.s, college professors, or big business executives. How I wish I might sit down and talk with that father.

Defeats Own Ends
You asked what we did when our children had to be punished. You mean for bad school reports? Well, we never believed they or any other child should be punished for failure or poor grades at school. Though our children usually made good grades, they sometimes made very bad ones. Despite all our other shortcomings as parents, we were able to discipline ourselves not to scold and punish for such.

This boy needs guidance so he can be set to learn at only what he can succeed, so he can have the heart to try his best. He needs a father of love and companionship who can inspire hope and effort in him.

All Of Us

By MARSHALL MASLIN

STRANGER IN THE STREET

As I came late down my street, devoted save for me and the sound of my footsteps, suddenly I felt a presence near and looked swiftly around. . . . And there, leaning gracefully against a wall, half hidden in the shadow of a tree, stood a figure I swear had not been there an instant before.

He said, "Good evening," and I noted that his voice was deep and strong—and instantly I knew that it was, in truth, a GOOD evening, because he made it so. There was half a moon above us and a street lamp shone at the next corner. In those two lights I saw his face and it seemed to me that there was sweetness about his mouth, but unappealing sorrow in his half-hidden eyes.

I asked, "Are you a stranger in these parts?" and he answered, "No, I have known you all your life. I have been your friend for years. You remember me well enough, though sometimes you think you have forgotten me. . . . I know all that you do. I know all that you think and hope for and dream. I know you more intimately than any man or woman on earth. . . . I know the times you know the right thing to do and did not do it. I know the times you have been afraid and the times you have been bold.

"I know your richness. I know your poverty. I know your impatience and your endurance. I know the difference between the man you think you are and the man you are, between the being you intend to be and the man you are sure to become. I know your excuses and your defenses, your humility and your scorn, your integrity and your shame.

"I know what life does to you and what you do to life. I know your sorrow and your peace. I know your petulant waywardness, and I know that mystical compass within you that never completely betrays your faltering steps.

The night wind blew, cool and comforting, upon me, and I felt at ease with this figure that spoke so confidently about me and my ways. "And who might you be?" I asked him, courteously. And he smiled and whispered: "I am that Compass. I am the Conscience of every man—and I am your Conscience, too."

HINTS and DINTS

Sun sets tonight 5:40, sun rises tomorrow 6:47.

Don't feel so bad because you aren't able to take a vacation these winter days. On the same day that it rained recently in California, there was a cold snap in Florida.

An Olean, N. Y., dog, which had been taken to Washington, ran away and returned to its home, several hundred miles away. Even the poor canines can't put up with the stuff that goes on down in Washington.

Life at its worst: Being a stranger in a hick town on a rainy Sunday and unable to sleep.

Because the poor housewife likes to see the cream on the top of the milk, a Massachusetts dairy the dairy officials are advocating the use of paper containers to replace milk bottles. There is always someone wanting to take the pie out of life.

NO POET
A local parent denies that he named his boy Homer in honor of the great poet.
The parent, it appears, is a pigeon raiser.

Fable: Once a carpenter building a house, split a board with a nail, so he removed the board and used another.

Years of renting spoil you for home ownership. You can't overcome the habit of not caring what happens to the house.

Our soldiers wouldn't act like the Japs. You never heard of a Marine heading off and slapping a tough guy.

East is East and West is West, and never the twain shall meet—I hope, I hope, I hope.

An army travels on its stomach. You see, it finds so many other travelers there to keep it company.

Suggestion for another best seller: A book telling people how to get rich by telling others how to win friends and be popular.

Al Capone, according to a news dispatch, is suffering from a mental collapse at Alcatraz and he is to be removed to an Eastern penitentiary for treatment. Maybe it would be cheaper to send a doctor to Alcatraz to treat him.

Great executive: A man who was smart enough or lucky enough to hire a good office woman.

Progress is the art of being dissatisfied with more and better things.

Social life, in small town: Play bridge in the afternoon; eat fancy party food; take soda all night.

Give the failure credit for nerve. The successful man would fail too if he tackled a bigger job than he could handle.

BREATHLESS
Dere Hints and Dints: I sat down in a restaurant the other night intendin' tuh feed my fave wuz. I noticed wot the two fellows at the next table wuz talkin' about.

"Zep," sez wuz uh the two men, "I read it in the paper. This guy went 47 days without eatin'." All he had wuz a little water now an then. "Yuh don't say?" sez the other feller. "Wuzzent he hungry or wuz he just plain nuts?" "Nah," sez the first guy, "he wuz tryin' tuh set a record for fastin'." "Throwin' a perfect arm around my soup bowl, I leaned over tuh where they wuz sittin'." "Gentlemen," I sez, "I couldn't help hearin' wot yew wuz talkin' about. En that reminds me uv old Gloomy Gus who used tuh live out Prairie Dog Center way. Gus wuz wuz uv these guys wot wuz always tryin' tuh set a record uv some kind or nother. Well, sir, wun day he bet he could hold his breath longer than any other feller in the town. We got a waton on third base. Flaw may not believe it, but Gloomy held his breath for wun hour on 18 midgets!"

A Yale lecturer stated recently that it is sometimes considered perfectly proper in New Zealand to kill a man for being rude and impudent. Here in the United States the only person who can get away with such stuff is a woman.

ENCOURAGEMENT
First Interview—Did you say you were going to encourage the patient?
Yes, I did. I told him it would be months before he'd be well enough for his relatives to call on him.

Amateurism: Feeling turned because Federal taxes take 8 per cent of our income, supporting 175,000 divisions of government that take 12 per cent of our income.

Down in Nicaragua, they are going to provide easy chairs for all workers. Nicaragua evidently hasn't heard about the promises of the present day workers to strike while sitting down, whether the item is hot or not.

THE WORM WILL TURN
Little Archie—Gee, pop! I just swallowed a worm!
Anxious Father—Take a drink of water, quick, and wash it down.
Little Archie—Aw, no, let him walk.

The World At A Glance

Britain Treats With Nazis.
Not Surrender Of Democracies.
Move Seen As Peaceful One.

By LESLIE EICHEL, Central Press Columnist

THERE ARE arguments among Britishers as to whether Britain should enter into "peace" treaties with the totalitarian states, such as Italy and Germany. That means, Britain already has gone far toward entering such treaties. No nation permits knowledge of her own institutions unless they have gone a long way. The British cabinet is supposed to have indicated to Hitler that Germany could expect a restoration of at least a portion of the colonial possessions lost during the World War.

"Bitter enders" believe that compromise with the totalitarian countries would be "surrender" by the democratic nations.

Undoubtedly the dictators would feel a bit put down also. Mussolini has had misadventure in Spain with France, and Germany has demanded more than it will receive.

Suppose there would be no treaty and no "peace"? Would democracy get any further? How much longer before the tanks of all would break with the economic burden imposed by armaments? How long before, in despair, maddened people would be fighting as a last resort?

THROWN TO THE WOLVES
Said Sir Stafford Cripps, some time ago: "The present British National government is throwing the democratic babies of Europe to the wolves in the hope that the imperial babies (democracies) may be saved for another five years. By such a policy we are helping to create a German power that will make it easy to pick the bones of the British Empire in six years' time."

But more recent events in Germany, themselves, may return to Germany in six years' time.

"Peace" is a nice word, but it is not what the dictators will get. Absolution does not stand well the daily droppings of peace.

The British have not suddenly become fools after centuries of plain sense. One European nation against another to maintain a balance of power. One may rest assured that Britain will enter an agreement with Germany or Italy—and think about politics and ideology and form of government later. In fact, the present British government does not give a whoop what form of

government any other nation has, so long as that government does not interfere with Britain's trade lines throughout the world.

(Britain's non-interference in the recent Nazi absorption of Austria and France will have to follow Britain. France, unlike Italy, has permitted knowledge of her own institutions unless they have gone a long way. The British cabinet is supposed to have indicated to Hitler that Germany could expect a restoration of at least a portion of the colonial possessions lost during the World War.)

Evangelistic Trend Features Some Of Programs Of Sunday

Revival Will Move Sunday To Cathedral

Pentecostal Church Not Large Enough For Sunday Night Crowds

Proving that "the old time religion" is still something the public wants to hear about, the revival at the First Pentecostal church at Pearson and Epworth streets, is plunging into the 25th week and tomorrow night will be moved to the Cathedral auditorium where there are 3000 seating seats.

"This service promises to be one that will linger long in the memory of those who attend," Rev. Thomas W. Turner, Pentecostal pastor, said today.

Evangelist C. S. Tubby, whose sermons have been attracting so much public interest, will speak on "Lying Wonders." In this message he will tell of his amazing experience with "Father Divine" in New York City. A huge picture of this strange man who claims to be God will be shown. Mr. Tubby will also tell of many other strange things that are showing themselves throughout the world.

A fine musical program is being arranged, including special numbers by the revival quartet, the augmented harmonica band, and other numbers by special groups.

Mayor Charles E. McGrath will occupy a seat of honor on the platform, and there will be delegations from neighboring towns. Mayor McGrath will make a few remarks.

The Cathedral doors will be opened at 6 p. m. and the service will begin at 7:30. Admission is entirely free. An offering will be taken.

Special music will be furnished by the Enon Valley Presbyterian church and the Harborsburg Baptist church. This Fellowship is composed of ministers and laymen who have subscribed to and signed the statements of faith of the World's Christian Fundamentals Association.

Dr. W. D. Herrstrom of Akron will speak at North Side Community Church.

Campaign Plans To Be Completed

Meeting To Be Held Sunday Afternoon At First Methodist Church

The representatives from the Sunday schools participating in the "Diamond Jubilee" increase campaign will meet at the First M. E. church, New Castle, Sunday afternoon, February 20, at 2 o'clock to discuss plans for this united effort for increasing the Sunday school attendance of New Castle and Lawrence county as a whole. This campaign starts the following Sunday, February 27. Both representatives from Sunday schools of New Castle and other parts of the county are invited.

The New Castle Sunday schools that have furnished their 1937 average attendance and are enrolled are the Third U. P., the Epworth M. E., the First Baptist, the First M. E., the Highland U. P., the First Christian, the First U. P., the Central Christian, the Graton M. E., the Second U. P., the Mahoningtown Presbyterian, the St. Paul's Lutheran, the Madison Avenue Christian, the Mahoningtown M. E., the St. John's Lutheran and the Wesley M. E.

Some other Sunday schools are planning to furnish their average attendance tomorrow, and any rural Sunday school may furnish 1937 average attendance and call in attendance for every Sunday during eight weeks, and their records will be published in the newspaper but not listed with the New Castle Sunday schools. One of the smallest Sunday schools in Lawrence county, the East Brook M. E., had an average attendance of 20 during 1937, but were very successful in last year's campaign and for 1937 had an average attendance of 34. They have enrolled again this year.

Mayor Charles E. McGrath is considering having a campaign similar to the New Castle plan, starting with a number of the larger Sunday schools and inviting others to join.

Sunday, February 27, will be "Young People's Day." Sunday, March 6, will be "Adult Day." Sunday, March 13, will be "Missionary Society Day." Sunday, March 20, will be "Cradle Roll and Home Department Day." Sunday, March 27, will be "Old Folks Day." Sunday, April 3, will be "100 Per Cent Enrollment Day." Sunday, April 10, will be "New Members and Decision Day," and Easter Sunday, April 17, will be "Every One Out Day."

While the Sunday school attendance will be the only phase that will be reported in the papers, the other goals for this campaign will be an increase in evangelism, an increase in church membership and an increase in Bible study.

First President Will Be Honored At Italian M. E.

Washington's birthday will be observed at the Italian M. E. church, Sunday evening. This service is sponsored by the young people of the E. L., who have invited the congregation and its friends for the celebration. The guest speaker for the evening will be Rev. W. J. Holmes. There will also be an accordion solo by Raymond Ludwig.

Palestine Views Will Be Shown At Revival Services

The revival services at the Bethlehem Baptist church, where Rev. William Taylor is preaching, are being well attended. They will continue each evening, including Saturday. At the service tonight pictures will be shown of Palestine and the sermon subject will be "Palestine in the Light of Prophecy."

PREVENT COLD FEET
For extra warmth in winter place a pair of all wool double blankets below the under sheet on your bed (or top of mattress pad and under lower sheet.) This homemade heat pad device is kind to sensitive backs and cold feet and will obviate the necessity of so many heavy top blankets.

THE WORLD AT A GLANCE
(Continued From Page Four)

As a matter of fact, if trade is to recover throughout the world (it has declined everywhere), there must be peace.

Britain, more than any other nation, depends on the lifeblood of trade. It MUST have peace.

In fact, where is it not the supreme essential? Germans and Italians might starve if they entered a war. The Soviet Union is none too well stocked with food and goods. Japan soon will be making extreme sacrifices. And France has such a burden now that a government which went into war might bring complete collapse at home.

The Latin-American countries are no better situated, in spite of their new bold Fascist front.

And the Rumanians, the Yugoslavians, the Latvians would go through one revolution after another.

Austria, Hungary, Greece—they are too weak to lift a finger now.

And Spain is bled white.

Humanity cannot say that it is a surrender for Britain to make peace terms with autarchic states. The Germans as a people and the Italians as a people must attend to their duties in due time. One cannot change the political complexion of a people by chastising them.

THE WORLD AND THE Mud Puddles
(Continued From Page Four)

This country needs billions upon billions of investment of private capital to bring it back to a condition of real prosperity. That capital is ready and waiting to go to work, but it can go to work only under certain conditions.

Chief among these conditions is the removal of the fog of uncertainty as to what government is likely to do. If there is to be more currency tinkering, if the most unscientific national tax system in the world is not to be simplified and made fairer, if industry is to be further regulated and its head tied, if government will not put its own house in order through a balanced budget, capital cannot be found for the extensions and improvements, the new industries, that the country needs.

It is up to the people to choose whether industry shall be permitted to do its job or not. The advertising campaign of the National Association of Manufacturers should help in producing a right choice.

Today Is The Day

25 Years Ago Today—Mexico had three presidents in one day. Revolutionists forced President Madero and Vice President Suarez to resign. That automatically made Minister of Foreign Relations Lascurain the president, and so he remained—for exactly 26 minutes. In the interim he had appointed Gen. V. Huerta minister of foreign relations. His resignation made Huerta president, and another wave of blood began to wash over unhappy Mexico.

WASHINGTON AT A GLANCE

Borah Is Held Influential One

No Successor In Sight At Present Time For Idaho Senator

HELD BIGGER MAN THAN JOB

Central Press Washington Bureau
602 Times-Herald Bldg.
By CHARLES F. STEWART
Central Press Columnist
WASHINGTON, Feb. 19.—The most influential single member of congress undoubtedly is Senator William E. Borah of Idaho. In fact, in a way he comes close to being the most influential single individual in the United States. Of course he cannot shape policies as the president can, but the presidential influence has position back of it; it is not purely personal. Borah's influence, insofar as it goes, is not a long distance; it is his influence. It is not his job's influence, for he is bigger than his job.

For example: Take the case of the anti-lynching bill.

ANTI-LYNCHING BILL

That bill has White House backing. It was Postmaster General James A. Farley's pet. Nobody approves of lynching. On the face of it, the proposed law should have gone through a-kinning.

Southern Democrats, however, opposed it—on a certain sort of sentimental grounds. But they knew that they never could out-vote the proposition—not if it came to a vote. Their only resort was a resort to filibuster tactics—in other words, debating the thing to death. Their reckoning

was that they could tie up other issues so long that, finally, the majority would have to drop THAT issue in order to get on to other business.

BORAH'S VOICE

The southern congressional group certainly could not have accomplished this object by itself alone. It was not numerically strong enough.

It had Republican senatorial support, to be sure. Still, there were not enough Republicans in the senate to signify, influentially. There were 16 of them, out of 36.

At 15 of the 16 had not voice enough to be audible. But Borah had voice enough to count for his whole party and for a majority of the remaining miscellany.

BORAH'S PUNCH STRONGEST

A few other senators are bigger than their parties.

Senator George W. Norris, who classifies as an independent, is more influential, individually than any Republican or Democrat. Senator Burton K. Wheeler, nominally a Democrat, is a non-partisan leader. Senator Robert M. La Follette, a so-called Progressive, has some individual influence.

PARTY MEN

There are some more prominent senators:

Hiram W. Johnson of California, Carter Glass of Virginia, Arthur H. Vandenberg of Michigan and Allen W. Barkley of Kentucky—but they are tied up with parties.

Several of them, also, are too old for leadership considerations, on either side of the political fence.

WHO AS SUCCESSOR?

And scarcely needful to say, Senator Borah is too old.

Borah ought to nominate a successor.

Seek Cadets In Air Corps

Local Guardsmen Are Appraised Of Opportunity For Unusual Training

YOUNG MEN OF CITY ELIGIBLE

Information has been received by troop officers and men of Troop K, 103rd Cavalry, P. N. G., from Major Maurice Rose, cavalry instructor of the National Guard, Tyrone, Pa., of the opportunity that is offered suitable and qualified young men to secure training at the Air Corps training centers.

"The Air Corps training centers are considered to offer the best course of flying instruction available anywhere in the world," Major Rose states. "The courses are thorough and fully cover all of the fundamental knowledge needed by military pilots. These courses normally require one year, including eight months primary and four months advanced training and includes courses in navigation, radio, meteorology and other subjects all with military aviation. The courses normally start on March 1, July 1 and October 15 of each year."

"Individuals who are accepted for flying training in the Air Corps are appointed flying cadets and receive as base pay \$75 per month and a ration allowance of \$1.00 per day. The ration allowance has been found sufficient to maintain a first class cadet mess."

"Candidates for appointment as flying cadets must be unmarried male citizens of the United States who at the time of submitting their application are between the ages of 20 and 27 years. An applicant must submit a certified document from the office of a registrar of a recognized college or university showing that he has completed satisfactorily one half or more of the necessary credit leading to a degree which normally requires four years' work, or must pass an examination which is the equivalent thereof. The applicant must present evidence showing that he is of excellent character and he must also be of sound physique and excellent health."

"Young men who are interested in taking advantage of this offer are requested to write for further particulars and application blanks to the Adjutant General, U. S. Army, Washington, D. C."

Kitten In Ward Has Close Call

"Midnight" A Jet Black Kitty Gets Head Caught In Old Tin Can

"Midnight" the jet black cat belonging to Mr. and Mrs. O. C. Kerr, of West Cherry street, nearly lost all of her nine lives at one time this week.

Several days ago, the household pet wandered away from the Kerr home and failed to show up for food and a place to spend the night. The cat was missing Wednesday and Thursday, and by Friday the family had just about given her up as lost.

It was Friday afternoon when Mrs. Kerr was on her way to their garage that she noticed something at the side of the building near the doors. Upon investigation, Mrs. Kerr found an old salmon can and inside the can was Midnight's head.

The cat was very still and Mrs. Kerr believed that it was dead.

Upon her examination "Poor Midnight" the lost kitten began to kick its paws for all its worth. Mrs. Kerr took the animal, can and all into the house. She worked almost an hour before she finally extracted the head from the can.

The delighted cat merely sat back and gazed up into the eyes of Mrs. Kerr, seemingly to thank her for her kind deed. Evidently the animal had not eaten since its disappearance and was just about ready to give up when it was found near the garage.

Library Moving In Full Swing

Library Closed Friday Evening—Boy Scouts Great Aid In Moving Books

MANY HUNDREDS OF BOOKS MOVED TODAY

When the doors of the public library building on North Jefferson street closed Friday evening at 9 o'clock they were closed forever to patrons. The institution will be closed for about three weeks after which time they will open in the new building corner of North Mercer and North streets.

The moving is in full swing today as many hundreds of volumes were being taken from the old building and placed in the shelves of the new library home.

A crew of approximately 60 Boy Scouts from New Castle troops reported at the library at 9 o'clock this morning to aid with the moving. Under the direction of Major Guy Wadlinger, the boys transferred, most efficiently, many truck loads of books.

The scouts were working in systematic military style, in a plan

worked out by Major Wadlinger. This plan makes the work more efficient and saved a great deal of unnecessary confusion.

At the old library the books were taken from the shelves and packed in boxes. The boxes were then taken by truck to the new building where they were met by another crew of scouts. These boys unloaded the books onto the shelves. Another crew of boys at the new building was dusting books, shelves and equipment.

All members of the library staff were on hand at the library supervising and aiding with the moving.

Section Three Ends In Three-Way Tie

New Castle Romps Over Butler 48-16, Aliquippa Winner

Locals Score Easy Victory Over Butler Quint, Nocera, Koszela, Carey Stars

Aliquippa Wins From Ambridge 26 To 25, Will Have Playoff Series

New Castle High School basketball team got a "life" last night. First New Castle walloped Butler High 48 to 16, and second Aliquippa High nosed out Ambridge High 26 to 25 in a disputed game at Aliquippa causing a three-way tie for the Section Three championship.

It will necessitate a playoff series of games. Faculty Manager Ralph H. Gardner is in Pittsburgh today for a meeting with the W. P. A. L. committee and will arrange for the playoff games. It is likely that the elimination games will be played either at Pittsburgh or Beaver Falls.

Take Early Lead
Getting back to the struggle here last night, the New Castle team took a lead of 11 to 1 at the first period and at the half had increased the lead to 20 to 5. Butler had but two field goals the first half. The New Castle defense put up by Carey and Snieczek was the best seen here this year. On the other hand Nocera and Carey dumped in the majority of the first-half field goals.

The third period found the locals getting better if such was possible and running the count to 36 to 6. Coach Phil Bridenbaugh used all his subs in the game and when the game ended New Castle had a complete second team on the court.

Good At Fouls
In foul tossing the New Castles had 14 out of 22 for a very enviable record. Butler made 4 out of 12, both teams missing eight charity shots.
For the Butler team the work of Cutler and Huey, along with Shuber was the best. The Butler team was inexperienced, but it must be said that they tried their hardest to make it interesting for New Castle. Coach Regis Heintz said after the game that New Castle looked the best of any team that Butler has played all year, the way they handled the Butler boys last night.

Cheer Goes Up
Upwards of a 100 young students and fans waited in the Wash High

gym while a call was put through to Aliquippa and when the score was announced a big shout went up. The New Castle team especially was mighty interested in the Ambridge-Aliquippa game.

Head Coach Phil Bridenbaugh announced to the boys that there would be a stiff workout on Monday in preparation for the playoff game in section. New Castle is all pepped up now and rarin' for the series.

Subs Look Good
There isn't a team in the district that could have beaten New Castle last night the way those boys played basketball. Young Gennock, getting into his first varsity game looked the part of a real ball player and will be a valuable man before he is through. He will no doubt be a regular next year if he continues to flash the form he showed last night. He is a clever left-handed passer. Ostrosky and Wenda a couple of subs also looked very good.

In the preliminary game the New Castle High Reserves defeated Butler High Reserves 20 to 15.

New Castle Rifle Club Loses Shooting Match With Ohio Opponents

Last night's shooting match at the Cathedral range, New Castle versus Alliance, O., turned out unhappily for New Castle. The final score was 339 to 342 in favor of the lads from across the line.

Maybe the locals, with their long string of scalps, were a little too sure of themselves, or maybe the windshield wipers on their telescopes weren't working properly. But whatever the alibi, the fact remains that Alliance proved "entangling" instead of the easy mark which had been anticipated.

Here are the scores:

New Castle, 339—R. Pugh 188, McKibben 188, Hockenberry 188, Hunter 188, R. Moore 187.

Alliance, 342—McLaughlin 192, Zings 190, Cutler 189, Brunie 195, Tanner 185.

Other scores—Ferver 183, Finley 178, J. Moore 185, Thomas 183, Hill 178, McBride 180, Zeigler 178, Cooper 176, Watson 174, C. Pugh 180, Houck 180, Waddington 178, Harmer 182, J. Davis 170, Patterson 180, McKeown 186, Isaac 124, D. McMullen 158, H. Allen 182, Gunnall 171, Eyer 178, Teagarden 180, Sell 164, McCarty 167, Seiffert 184.

A very important business meeting of the New Castle club will take place Monday night at 7:30.

Polish Falcons And K. Pulaskis Will Tangle At K. P. Hall

The K. P. hall up in the Oakland district will be the mecca of the basketball fans on Sunday afternoon, the occasion being the first of a three game series for the Polish basketball championship of New Castle. The contesting teams of course will be the Polish Falcons and the K. Pulaskis.

The K. Pulaski Bees will play the Polish Falcon Bees in the first game at 2 o'clock. The Falcon Bees were formerly the Veterans.

Pulaskis Confident
Coach Johnny Sierosnick of the K. Pulaski "Big Five" has high hopes of knocking the frosting off of the Falcon cake. He will use his strongest possible starting lineup with Joe Ostrosky former Union High star one of the marked men.

In the Falcon lineup will be three former New Castle High stars, Coach Henry Koszela, Lester "Blond Terror" Reiber and "Horse" Ryglinski.

This game will no doubt be one of the best of the year at the Falcon hall, it was announced by Eddie Sesko, the K. P. business manager. Sesko is making arrangements to handle an overflow crowd. The SRO sign will no doubt be hung out quite early, so if you want to see this classic get there early.

The lineups:

K. Pulaskis: Polish Falcons

HERE AND THERE IN SPORTS' LAND

Temple university won the championship of the Eastern Intercollegiate Basketball conference by beating Pitt at Pittsburgh, 46 to 34, last night. The win was Temple's eighth straight in the conference race even though they may lose to Georgetown in the remaining conference game.

Temple led at the half 35 to 14. Slippery Rock Teachers won from Edinboro Teachers, 42 to 41, at Edinboro, Wolfe, guard and R. Intri, forward for Edinboro, each scored 14 points. California State Teachers defeated Clarion State Teachers at California, 51 to 35.

"As soon as he got to the top, he threw me over. Tom has no use now for old friends who helped him" was the statement given out by Tom Evans, trainer for Tommy Farr, when Evans arrived at Plymouth, England, from New York yesterday.

Oakland Quintet Trips H. P. R. Club

The first Oakland Quintet handed the H. P. R. club a 22 to 18 setback in their game at the K. P. hall, with Boren, Ryczay and Smolnik the stars. At the half it was 13 to 7 in favor of the Oaklanders.

Accepts Offer To Manage Strollers

Announcement was made today that Tex Richards, prominent local athletic star and coach, has accepted the offer given him to manage the East Side Stroller Athletic club mushball team.

Richards is recognized by many sports fans as the best mushball catcher in the city. Last season he played with the Mechanicals, who won the championship of Youngstown.

The abbreviation N. B. comes from the Latin "nota bene" meaning "not well."

Aliquippa Wins When Ambridge Hi Walks Off Floor

Heated Argument Ends Crucial Game As Ambridge Tosses Away League Lead

ALIQUIPPA, Pa., Feb. 19.—The Ambridge High school basketball team relinquished sole possession of the lead in Section 3 of the W. P. A. L. last night, when Moe Rubenstein's boys quit the floor in an overtime period when an argument arose between the timers of the game. At the time Referee Campbell forfeited the tussle to Nate Lippe's protégés, the score stood at 26 to 25 in favor of the local quintet.

When the regulation four quarters terminated the score stood at 24-24. Soon after the extra period got under way Moscola, Aliquippa sub forward, caged a basket and Ambridge added a point from the free stripe. It was at this juncture that the timers became involved in a heated argument. After several minutes delay Referee Campbell issued his ultimatum to the Ambridge boys and when they failed to resume play after the warning the arbiter announced the forfeit.

As the result of the Aliquippa victory there is a three way tie for the sectional lead, with Ambridge and New Castle sharing the honors.

The game was a nip-and-tuck affair from the start. At the end of the first quarter the home quint was out front, 6 to 5. At the half way mark Ambridge had forged to the front, 16 to 13, at the three quarter post the visitors were still out front, 20 to 19.

Davies, Aliquippa guard, was the leading scorer of the game with four baskets and two free throws, Zolokowski, Sweeney and, Holitz shared the point-getting laurels for Ambridge, each with six.

Adamick Wins From Thomas In Slashing Battle

New Heavyweight Sensation Makes Fairly Good New York Debut

By DAVID J. WALSH
International News Service Sports Editor

NEW YORK, Feb. 19.—He was pelted, belted, bashed, maimed and all but beheaded during the long-fest three minutes Jimmy Adamick ever again will live through. But at the close of a heart-breaking tenth and final round last night, they walked away from Harry Thomas and over to Adamick's corner, there to raise his hand in token of victory.

He had just survived a round that he convinced would have wound up with Louis in a stupor and Schmeling in a trance. Only the old Dempsey could have taken a punching like that and stayed in there. Adamick did many things last night, including some that were wrong, but that heroic tenth round made believers out of most of us.

The decision was unanimous, but it didn't sit well with the strictly Class AA attendance of 7,000 which vowed in high dudgeon and was all for calling out the militia on some thing. In fact, leaving Madison Square Garden, I heard one witness say to another:

Adamick Looks Good
"Wouldn't it be funny if Adamick won the heavyweight championship?"

Personally, I think it would be very funny if he doesn't. An official forfeiture of the third round by Thomas for an alleged low punch was a vital factor in calling Adamick the winner, at least in my book. But it's also in my book that a few months from now, he'll be popping the Thomases of this life with abandon. He showed last night that he can punch, move like a middleweight and take it as only Dempsey could. If he needs anything else, it must be a crowbar.

As a matter of fact, I'm beginning to wonder whether this wouldn't have been a good idea for both of them. Adamick, like Schmeling, was clipped right under the opening bell, took a brutal clattering in the third and seventh and, in the tenth, was almost battered for his intellect.

Sweeney's Team To Play Titans

Former Westminster Great Is Coach Of Youngstown College Cagers

(Special To The News) NEW WILMINGTON, Feb. 19.—One of John Sweeney's basketball "greats", Coach Ray Sweeney, will bring his Youngstown college cagers to New Wilmington Monday night, Feb. 21, for the first of a two-game series with Coach Washburn's Westminster team.

Leading scorers for the Penguins will be Vito, junior forward, and Smith, senior guard, who led the 1937 team in point-scoring for the Youngstown cagers. Missing from this year's lineup will be Lucker, last year's best player, who was injured in a game with the Penguins.

The Penguins have been a hot-and-cold team throughout the season, playing inspired ball to defeat such teams as Geneva's Covenants and Coach Thompson's Rockets. Twenty games are marked up on the Penguins' 1938 schedule, against tough opposition, such as Akron, Geneva, W. and J. Keit State, and the University of Newark.

The Blue and White of Westminster has a chance to end one of its most successful seasons unless upset occurs, with a 10 and 4 last record, and six games to go. With better breaks on free-throw scoring early in the season, the Titans would have lost only one or two games.

Playing for the Titans will be two Youngstown players, Paul Backus at center, playing his final year for the Titans; and possibly Ken Grubb, junior, Ohio, forward, and 1936-37 high point scorer for Westminster. Both Backus and Grubb played for South High under Coach Ashbaugh. Backus winning two letters at center, and Grubb cleaning two varsity awards at guard position.

Probable starters for Westminster will be Andy Demo, Johnstown, and R. Gilliland, New Wilmington, forward; Paul Backus, center; Mel Miller, New Brighton, and John Krivosh, Sharon, guards.

Rotary Lecture Is Largely Attended

Dr. Albert Speaks On "Can America Live Unto Itself?" In First Address

ELLWOOD CITY, Feb. 19.—Ellwood city's first lecture of the Rotarians' Institute of International Understanding by Dr. Allen D. Albert, widely renowned speaker on "Can America Live Unto Itself?" was held last night in the Lincoln High school auditorium.

Many of the city's civic and patriotic organizations and churches have united to share in these beneficial lectures and their impression of Dr. Albert and his message was most favorable and believe it should stimulate a much larger attendance at the following lectures. Last night's attendance numbered something over two hundred.

Many questions of vast interest were answered by Dr. Albert in his open forum period. The principal feature of his address were given in Friday's edition of this paper following the New Castle meeting.

H. W. Smith, president of the Rotary club, presided and introduced the speaker. On Friday evening, February 25, John S. Moore will speak on "Is A European War Inevitable?"

Hesitancy At Opening
HourBy LESLIE GOULD

NEW YORK, Feb. 19.—The stock market moved upward today in quiet dealings, after some hesitancy at the start.

Leaders were up fractions to a point with copper chemicals and oil leading the advance. Leaders were mixed at the opening, with plus signs somewhat in the majority. Mid-way through the two-hour session copper and chemicals enjoyed a mild flurry of buying. This spread gradually to the rest of the list, and carried stocks to their best levels of the day just before the close.

Most representative issues limited advances to four-sized fractions, but several specialties gained a point or more. Westinghouse Electric, Union Carbide, Air Reduction, Philip Morris and a few coppers were among the more buoyant issues.

Commodities improved along with the stock market. Cotton moved up a few points, while grains climbed close to a cent a bushel. Bonds were quiet and showed few changes of consequence.

Amsterdam, the only important foreign market open today, was lower.

American shares were under parity levels. The dollar continued its recovery against alien currencies.

Expect To Start
Work On Sewer
Project MondayTwenty-Five Men To Launch
Storm Sewer Project For
North Hill Area

First of the city-W.P.A. projects, which it is expected before the summer and fall is over, will result in an expenditure for labor and materials, approximately of a million dollars will get under way Monday morning when 25 men will start preliminary work on the Mercer street-Eldred avenue-Schenango river storm sewer. The work will start at the Schenango river and proceed eastward.

It is anticipated that when the work proper gets under way 300 men will be employed and the total cost will be approximately \$200,000, according to City Engineer Glenn R. Throop.

A large street program has been prepared. The C program will result in an expenditure of probably \$500,000 and it is believed the portion of the D program which will be completed will cost \$200,000.

The city engineer anticipates that the projects, once fully under way, will absorb the unemployed now on relief rolls, he stated.

Men are working at present in quarries securing stone for projects, and Cascade Park is being improved.

HARRISBURG, Feb. 19.—The Department of welfare's campaign to relieve western penitentiaries of over-crowded conditions struck a minor snag today when only seven of the 35 counties contacted reported they could accept transfer of inmates to their institutions.

Blair county will take four prisoners, Cambria, 12, Clearfield five, Erie 10, Indiana six, Lawrence five, and Westmoreland 10.

Armstrong, Butler, Clarion, Crawford, Fayette, McKean, Mercer, Potter, Somerset, Warren and Washington counties, Bedford, Centre, Clinton, Huntingdon and Venango have not yet replied to Secretary Engard's questionnaire.

STYE RUINS FINE ROMANCE

Another of the last of O. O. Mc-
Intyre's columns, written shortly be-
fore his death, follows:

NEW YORK, Feb. 19.—A fine
hand-drawn. On the day I'm invited to
a spiffy dinner I wake up with a
puffed eye. Everybody will, of
course, believe that I have
the lightest idea where I got it.
Like fun, they all. By evening it
will likely suggest a Neapolitan sun-
set.

In fact, there is
no explanation a
guy can make
about a moused
eye that won't
cause them to
laugh behind their
hands. I imagine how
the truth would sound! Such
as: "All I know is that I was in
bed early, slept well and when I
awakened there it was!"

They'd go into hysterics with
that. The thing to do is to
with a few fancy trimmings. How
would this go: "My man Parkinson
looked in several times on me during
the night and saw nothing un-
usual." I love that "unusual." I'll
run through that again.

That might get over it I'd say
and let it lay. But no, when I ex-
plain anything that's a bit phony.
I have to go on and on and end up
with a truly huge laugh. Like a
High School girl with her first beau
I can't bark it out in a take it or
leave it manner. I have to sneak in
a trill.

I wonder where I picked up trill-
ing. Not from my folk. They spoke
out at meeting and you could like
it or lump it. But I have to be so
dad-gasted mealy-mouthed even
when it's nobody's business. Why
should I have to explain people
who don't give a hoot? I've known
a fellow with a wart on his nose for
30 years and not once has he offered

an explanation. But if I had it, I'd
never be carry about a set of blue
prints.

But I'm different. No back-bone.
Just a sallow-mouthed groveler. No
wonder they cuff me around. If I
had any sense I'd crawl back under
the porch and stay there. Always
in people's way, bowing and making
excuses for living. What good am I
to the world? I can't even stretch
out for the night without some low
skulking thing sneaking up and
seeking me in the peeper or some-
thing. Eureka! That gives me an
idea for a bang up alibi. Also I can
make myself something of a hero.

Pierce fight with a burglar in
early dawn. There he was—make
out. I'm telling the dinner crowd
now—skulking against the window
in the light of the moon. I might
make that "frost-clear moon" to
make it sound more literary. Any-
way, there he was, his face masked,
coat collar turned up. With a bound
I leaped from bed and was on him,
swaying this way and that, upsting
bric-a-brac, tearing down por-
tieres and arranging the hand that
held a blue steered 44. Once I felt
a touch of cold steel at my temple
and round and round we swung—
we seem to be waiting—until I got
the pistol out of range. Finally with
a mighty heave, I threw him to the
floor, sat on his chest until the police
came. Then dusting off my hands
lightly, said: "Officer, here's your
man!"

That sounds pretty good at that.
All except explaining the shiver. I
failed to do that. I know. In the
struggle I crashed the edge of a
door but it was nothing—business
of flicking a raveling off the coat
lapel—a mere nothing. All that
story lacks is a bit of love interest
and it would be o. k. for Harry Bur-
ton.

Let's take a squint at the eye
again. For the goodness sake, it
seems to be clearing up. Maybe just
too much sleep after all. I've a no-
tion to swat myself in the glimmer
anyway. Isn't that life, the cheat?
No sooner do I put myself on a ped-
estal than somebody knocks me off.
Now I'll go to the dinner and be
only my poky self—sitting around
like a bump on a log, watching like
a hawk to see which is the right fork
or spoon and getting grease dabs
on my new white vest.

Yes sir, all that black eye turned
out to be the makings of a sty.
How do you like that—a hero with
a sty? Only Little Lord Fauntleroy
have them. Pardon me madam, but
I won't be able to have desert.
I must hurry home and put a milk
pudding on my pepper. Just when I
might be turning loose some of my
charm on a visiting customer, I will
be sitting up with a sty. Well, one
thing is certain—there's always the
sty!

With the river project about fin-
ished near the Cherry street bridge,
the county commissioners have been
asked to sponsor a similar project
in Neshannock creek near the old
paper mill. The projected plan
would be to build a wall in the creek
to prevent high water inundating
the adjoining land. The Cherry
street bridge project is rapidly near-
ing completion and seems to be just
what was needed to protect the
abutments of the bridge and the
land on the west side.

No definite action has been taken
by the commissioners as yet. The
matter has merely been presented
to them for action and they are
considering it. If it goes through
the work will be done by the Works
Progress Administration.

Judge W. Walter Braham has
been in Erie county this week when
he has been holding criminal court.
One of the cases was a murder
charge, which, according to news-
paper reports has been an exciting
case.

According to reports coming into
the court house, spring is definitely
on the way. Farmers in Wilming-
ton township have started their
spring plowing, bluebirds and robins
are back in Neshannock township.
Commissioner George H. Bollinger

Jonquils are in bud and if this
weather keeps up some of the farm-
ers will be thinking of putting in
corn.

When radio reports of the Louisi-
ana tornado came in on Friday
morning Sheriff and Mrs. Lugham
had a few moments of anxiety.
Their son is located in Rodessa, La.,
where the tornado struck, but their
fears were allayed when a telegram
was received from him.

Voters who did not exercise their

are beginning to believe the state-

the coming primary unless they re-

in to the office of Registrar Thomas

on the books. A few are changing
their party affiliation and a number
more are registering their change of
address.

AROUND CITY HALL

Mayor Charles E. McGrath con-
ducted traffic court yesterday and
some of those who sought to be ex-
onerated of paying a fine for vio-
lating the parking meter ordinance
received no leniency. One autoist
who parked on a sidewalk at a dirt
thoroughfare near the Cathedral
also was fined. In other words His
Honor has begun to "bear down" on
motorists who have no legitimate
reason for escaping a fine. Approx-
imately a dozen erring motorists ap-
peared in court yesterday after-
noon.

During traffic court Friday May-
or Charles E. McGrath made it
plain that persons who park their
automobiles in streets where there
are parking meters then enter res-
taurants to partake of a bowl of
java or dine, violate the parking
meter ordinance if they fail to slip
a nickel into the meter slot. Sev-
eral motorists expressed the belief
they would not be required to pay a
parking fee if they were dining. His
Honor told them this was wrong.
However, he excused the erring ones
yesterday but this action may not be
a criterion of what may happen to
other violators who face him either
next Tuesday or next Friday when
traffic court is again held.

Dr. William L. Steen, health of-
ficer for the city today stated that
some milk dealers have not yet ob-
tained their 1938 licenses. He said
all of those who have not taken out
their license must do so immediately.
James Rea, sealer of weights
and inspector of measure, said the
same applies to coal dealers who
have not taken out their license.
Rea said that half or 100, of those
who are supposed to take out li-
censes have not yet done so. Vio-

lators of the milk and coal ordi-
nances are now liable to arrest, it
was stated.

Employees of the municipal de-
partment of streets are rounding
off the northwest corner of Wallace
and Highland avenue for better
traffic purposes.

Chief of Police Ralph A. Criswell
was vexed twice on two consecutive
nights recently. He said patrolmen
discovered a number of business
house doors open on both nights
which he charged was a direct in-
vitation to burglary. On both nights
he said, it required in one instance,
two hours search by police to locate
the proprietor of one store to have
the door locked and almost that
much time on another night to find
another proprietor. "Proprietors of
stores should place a small card,
bearing their name, address and
telephone number on the front win-
dow of their store. Through this
police can immediately reach them
in case door is found unlocked,"
Chief Criswell stated.

'Chain Mail' Again Provokes Warning

"It's Out," Postmaster Warns
As New Epidemic Is
Halted

Repeated "epidemics" of chain
letters in the mails here led Post-
master Richard A. Steen to send a
warning of several months ago
that "such mail is contrary to pos-
tal laws and will not be allowed."
New chain-type letters found their
way to the postmaster's attention
today. Many Mr. Steen said have
been removed from the mails. The
forbidden matter originated locally.

"The mails within the past week
have been flooded again," Steen also
said, "with letters carrying some
sort of a Cuban swindle propo-
sition."
Many of those letters were also
taken from the mails.

Mornes Tells Of Fishing In Gulf

Local Man Enjoying Life In
Florida And Writes Of
Some Of Pleasures

STATE FAIR IS GALA OCCASION

In a letter to The News, A. R.
Mornes of the Seventh Ward tells
of the enjoyment he is getting out
of his trip to Florida.

Recently he went out on a big
fishing boat and tells of his ex-
perience as follows:

"Just a few lines to tell you how
I am enjoying life here. I spoke
in Caldwell the other day about go-
ing on a fishing trip, but he doesn't
fish much, and Mike does not take
to the water, more on the shuffle
board game.

"Well, to get down to the fishing
trip. We were out on a boat called
The Hobo, 50 feet in length and ac-
commodates 20 passengers, with a
crew of three. It leaves the docks
at the juncos about 8:30 a. m. and
returns at 5:30 p. m. They take you
out into the gulf about 20 or 25
miles, where they begin to hunt and
fish at the same time. The captain
has a sounding plug on the end of
600 pounds of fish. It requires two
hours to make the trip each way, so
you see when the fish are located,
it does not take long to get a good
catch. They make up a jack pot
of 25 cents from each one on board
wishing to take part and the one
catching the biggest fish gets the
money. The man who won caught
one that weighed 13 pounds and 6
ounces.

"On our way back in, we saw a
big turtle which would weigh 40 or
50 pounds and another boat had
speared a porpoise, weighing a hun-
dred pounds or more. We saw sev-
eral of them leaping up out of the
water, as if they were playing leap
frog. I contemplate taking the trip
again as soon as the weather per-
mits, as it gets too rough to go out
some days and is dangerous.

"There are many places to go
here. The orange and grapefruit
groves are loaded with fruit and
other trees are now showing bloss-
oms. The military academy, sol-
diers home and Masonic home are
all lovely. I believe I like this place
better than California.

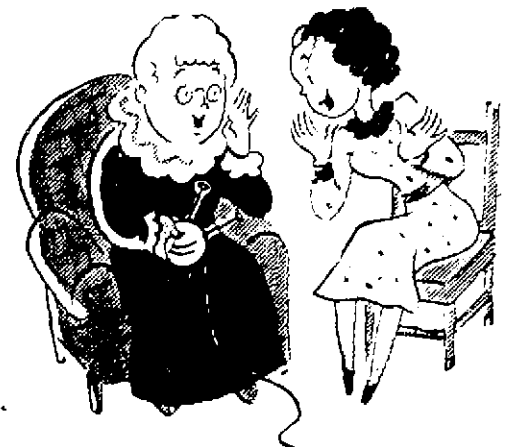

"We attended the Florida State
Fair at Tampa and the floats were
just as nice as the parade put out
in California. The entertainment on
the grounds and the stock display
were grand. The dog races were
drawing great crowds, and the tour-
ists all seem to think they can beat
the bookies.

"We are enjoying the daily News.
It is coming through in good time
and keeps us in touch with the folk
back home. Weather fine and com-
fortable. Regards to all."
